

Hi <First Name>,

Colleges across the country have taken action to protect the safety of their students, whether transitioning to virtual learning or closing temporarily or through the spring semester. We know that for many of you, this has meant relocating from your dorms or college residence and potentially needing to travel, whether to your hometown or to stay with family or friends.

Here are a few resources that may be helpful during this time:

#### A place to store your belongings

If you have had to move out of your residence hall or are in between stable living situations, U-Haul is providing college students 30 days of free self-storage. [See more information.](#)

#### Car rental companies offering assistance

To help college students who are looking to get home, many rental car companies are waiving age requirements and young-driver fees. Additional information is available through [AVIS](#) and [Enterprise](#).

<Add any relevant details around how your program is supporting transportation/relocation concerns, such as through emergency funds.>

Wherever you are located, we encourage you to follow the latest recommendations from the CDC and state and local health authorities. As always, our team is here to support you. <Add contact information/support details here.>
